

## HP Color Inkjet Printer – DK1195

To do this...	Follow these steps...
Set up the printers	<p>Open the printer box and unpack the parts. The box should contain:</p> <ul style="list-style-type: none"> <li>• The printer</li> <li>• One parallel cable</li> <li>• One power cord</li> <li>• The setup poster</li> <li>• The reference manual</li> <li>• The installation CD-ROM</li> </ul> <p>Review the steps and illustrations printed on the setup poster. Identify the parts.</p> <p>Connect the power cord and the parallel cable to your computer.</p>
Install the printer software	<p>Locate the installation CD-ROM and insert it into your CD-ROM drive.</p> <p>The automatic installation feature should begin. If it doesn't, click the Windows Start button, select Run, and browse the CD-ROM to locate the setup.exe file.</p> <p>Double-click setup.exe. The PRINTER SETTINGS screen appears as shown:</p> <div data-bbox="506 1100 1411 1556" style="border: 1px solid black; padding: 10px;"> </div> <p>Select the "Install" tab. Installation will begin. All software including the correct printer drivers for your operating system will be installed.</p>
Test the printer	<p>After installation is complete select the "Test Print" tab. The printer prints a color test sheet. Compare the colors to those on the test page pictured in the Reference Guide. If the colors do not match, click the "Troubleshoot" tab.</p>
